

What are the product details pages?

For every product on the SegenSolar Online Portal all the product and technical documentation is easily available and constantly updated to ensure you always have access to the latest information.

How do they work?

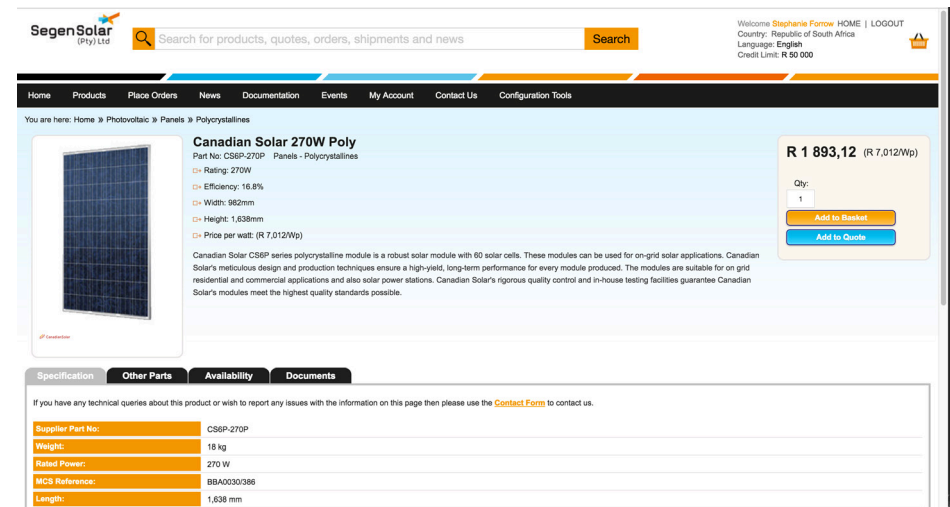

- The SegenSolar Order Portal has a wide range of information available. This allows installers to make informed purchasing decisions, as well easily access reference and support materials.
- On any product page key information is shown at the top of the page, for a panel, for example, this would include Rating, Efficiency, Width, Height and Price per Watt.
- Cost, availability, and any relevant offers are shown prominently to help installers more easily select and buy the most appropriate and best value products.
- Further information is then broken down into five key areas:
- More detailed Specifications highlighting all relevant details of the product at a glance...
- The Other Parts tab helps installers to easily find the most compatible components for the product they are looking to purchase
- The Availability tab gives installers an overview of not only current, but projected future availability to enable them to better plan for future or upcoming projects.
- All technical the Documentation for any product on the portal is readily available to an installer if or when needed. This includes Data Sheets, Installation Manuals, any Certifications or Warranties.

How do you find them?

The screenshot shows the SegenSolar (Pty) Ltd website. A search bar is at the top right. A navigation menu is visible, with 'Products' selected, showing a dropdown menu with options: All Photovoltaic, Panels, Mounting, PV Storage Products, Inverters, PV Package Offers, Commercial Products, Off-Grid, and Printable Product Catalogue. The 'Panels' category is highlighted. Below the menu, a product list is displayed with two items:

Product Name	Price	Availability
Canadian Solar 265W Poly	R 1 858,07 (R 7,012/Wp)	167 In Stock
Canadian Solar 270W Poly	R 1 893,12 (R 7,012/Wp)	0 In Stock

The screenshot shows the detailed product page for the Canadian Solar 270W Poly panel. The page includes a search bar, navigation menu, and a welcome message for Stephanie Farrow. The product details are as follows:

Specification	Value
Supplier Part No:	CSP-270P
