

COMPANY PROFILE

COMPANY OVERVIEW

A WORLD-CLASS POWER SOLUTIONS COMPANY

Chairman and Chief Executive Officer Dr. Shawn Qu founded Canadian Solar in 2001 with a bold vision: to foster sustainable development and to make lives better by bringing electricity powered by the sun to millions of people worldwide. The nearly 9,000 dedicated employees of Canadian Solar (NASDAQ: CSIQ) strive each day to make this vision a reality.

The company's two main lines of business are: (i) the manufacturing and sale of solar PV modules (69.1% of Canadian Solar's total net revenues in FY2015); and (ii) the development, construction and sale of solar PV projects, working with both build-to-sell and build to-hold business models. Over 15 GW of our solar modules have been installed, enough to provide clean, green power to an average of 2.3 million households.

Our products are in operation in more than 100 countries, giving us a truly global reach. These achievements put us at the forefront of making solar power competitive and mainstream.

Customers choose Canadian Solar because we deliver the best-possible value. Our wafers, cells, and modules combine superior quality with market-leading cost structures. And our solar projects consistently achieve the highest production values and returns on investment. We currently have more than 15GW of such projects in our pipeline worldwide and are uniquely positioned to provide complete turnkey solar solutions. By bundling services for the entire project life cycle—feasibility study, permitting, engineering, procurement, construction, and maintenance—we can significantly reduce complexity and cost for industrial and commercial customers.

CANADIAN SOLAR EXISTS TO MAKE THE DIFFERENCE.

COMPANY FACTS

CANADIAN SOLAR HAS BEEN MAKING THE DIFFERENCE FOR 15 YEARS. BY BRINGING A TOTAL OF MORE THAN 15 GW OF SOLAR CAPACITY TO OUR CUSTOMERS WORLDWIDE.

TOTAL MODULE SHIPMENTS (MW)

4.7GW of PV modules shipped in 2015. Enough to cover over 4,000 football fields and replace three nuclear power stations.

BUSINESS MODEL OVERVIEW

CANADIAN SOLAR'S CORE BUSINESS

FINANCIAL STRENGTH

ONE OF THE MOST BANKABLE SOLAR COMPANIES WORLDWIDE

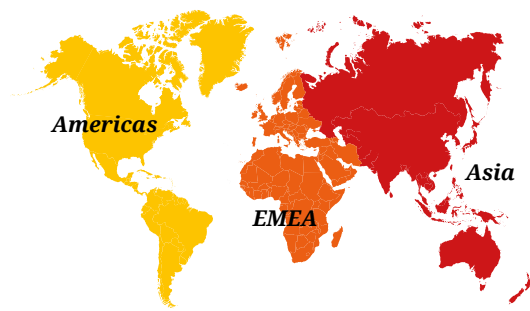

Steady growth has enabled Canadian Solar to become the world's second-biggest supplier of solar modules (see graphic on facing page). And we've done it profitably. Our net income of \$172 million on revenue of \$3.5 billion in 2015 was among the best in the industry. This record bottom

line is matched by a rock-solid balance sheet, with more than \$1 billion in cash and cash equivalents at year-end 2015. These figures underscore Canadian Solar's ability to combine growth, profitability, and prudent financial management.

SUCCESS BY REGION

GLOBAL MANUFACTURING BASE, GLOBAL CUSTOMER BASE, GLOBAL PROJECT PIPELINE.

Canadian Solar's reach is truly global. With the combination of our Energy business, specializing in the procurement and development of large scale Utility-Scale projects, as well as our modules sale, we managed to continuously expand. This is also due to our state-of-the-art manufacturing facilities in Canada, China, Indonesia, Vietnam and warehouses in 18 countries, enabling us to meet customers' needs 100 percent. And our customer-support team of more than 150 solar experts in 20 countries puts us close to our customers worldwide.

ONE TEAM SERVING THREE REGIONS

MULTI-FACETED, MULTI-CULTURAL, MULTI-TALENTED

Canadian Solar's sales business in Europe, the Middle East, and Africa (EMEA) is headquartered in Munich, Germany. The more than 60 highly skilled and motivated employees within our EMEA team encompass all relevant functions: business development, market intelligence, finance, technical, sales, marketing, operations and legal affairs. The EMEA team's focus is our strong, international sales team as well as our expertise to support all technical-related matters through our presales and after-sales support, including on-site visits and inspections, ensuring the best quality and service for our customers before and after each purchase.

With all this talent in-house, we can offer our customers the full range of services, from presale consultation and system design to after-sale service and training (on site or online). Moreover, our team brings together people of 22 different nationalities, ensuring that we have the cultural competence to understand and serve customers across EMEA. This rich diversity also makes our Munich office a great place to work.

Susanne Pflug, General Manager EMEA, joined Canadian Solar in 2011.

EMPLOYER BRAND

Ranked first for corporate social responsibility in 2015 and named Canada's most attractive employer in the Randstad Awards 2016.

Canadian Solar is committed to:

- equal opportunity regardless of race, gender, nationality, or lifestyle choices
- attracting and retaining the best people
- providing employees with an enabling, diverse, and fun work environment

1500V Max System voltage with more modules per string, reducing installation costs

The MaxPower CS6U-P module is designed for 1500V systems, allowing longer strings.

10 years 25 years

MaxPower CS6U-P

Highlight: High system voltage module, which allows an increase of 50% string length

Cells: 72 Polycrystalline
Power Range: 315/320/325/330 W
Voltage: 1500V
Dimensions: 1960 × 992 × 40mm
Weight: 22.4 kg

Higher module power of up to 295W thanks to mono-PERC technology

Our SuperPower Module uses latest mono-PERC (passivated emitter and rear contact) and five-busbar technology to deliver a module wattage of up to 295W.

NEW

10 years 25 years

CS6K-MS

Highlight: Higher module efficiency thanks to combining mono-PERC and 5 busbars technologies.

Cells: 60 mono-PERC
Power Range: 290/295 W
Dimensions: 1650 × 992 × 40mm
Weight: 18.2 kg

NEW INVERTER PARTNERS

To broaden our product portfolio, Canadian Solar has joined forces with two top inverter makers, Kostal and SMA.

Kostal, based in Germany, is a renowned supplier of string inverters suitable for use with installations of all sizes, from small rooftop to multi-megawatt.

Germany-based SMA is one of the world's leading manufacturers of inverters. Its extensive range of products encompasses residential, industrial, and utility-scale applications.

Kostal and SMA share our belief in simple, user-friendly products. Our partnership with them reinforces our commitment to providing our customers with the best solutions for solar energy.

MULTI-MEGAWATT INSTALLATIONS

CS6P-P

Highlight: One of our bestseller modules, light, robust and applicable for all installation types
Cells: 60 polycrystalline
Power range: 260/265/270W
Dimensions: 1638 × 982 × 40mm
Weight: 18kg

CS6K-M

Highlight: Easy-to-handle size with high energy yield
Cells: 60 monocrystalline
Power range: 275/280/285/290W
Dimensions: 1650 × 992 × 40mm
Weight: 18.2kg

CS6P-P-SD

Highlight: Embedded SolarEdge optimizer increases the energy yield and provides module-level control and monitoring
Cells: 60 polycrystalline
Power range: 260/265W
Dimensions: 1638 × 982 × 40mm
Weight: 19.1kg

CS6K-P-FG

Highlight: Frameless glass-glass module, 100% PID free
Cells: 60 polycrystalline
Power range: 260/265/270W
Dimensions: 1658 × 992 × 8.5 mm
Weight: 23 kg

CS6X-P-FG

Highlight: Frameless glass-glass module, 100% PID free, designed for 1500V systems
Cells: 72 polycrystalline
Power range: 315/320/325W
Voltage: 1500V
Dimensions: 1968 × 992 × 8.5 mm
Weight: 27.5kg

CS6X-P

Highlight: Optimized for BoS reduction
Cells: 72 polycrystalline
Power range: 310/315/320W
Voltage: 1500V
Dimensions: 1972 × 996 × 8.5 mm
Weight: 22 kg

QUALITY AND SERVICE

ROBUST CONSTRUCTION IN ACCORDANCE WITH THE HIGHEST QUALITY STANDARDS GIVES OUR SOLAR PANELS OUTSTANDING LONGEVITY

IN-HOUSE TESTING
BACKED BY LEADING
INDEPENDENT
TESTING INSTITUTES

“Canadian Solar demonstrates their focus on the development of high-quality assets, and we look forward to strengthening our relationship with them.”

MARKUS WILHELM
CHIEF EXECUTIVE OFFICER **BLACKROCK**

Solar projects typically have a designed operating lifetime of 25 years. Our products have the longevity to meet these demands. We conduct rigorous in-house testing in our own laboratories to ensure durability and regularly submit our products to the world's leading independent testing institutes, including the Fraunhofer Society and PV Evolution Labs. We've adapted the stringent quality-management

systems of the automotive industry to PV manufacturing and check every one of our products at 369 different points along the manufacturing process to ensure their quality. And we comply with a wide range of internationally recognized standards for quality and environmental management.

QUALITY CONTROL MEETS HIGHEST INTERNATIONAL STANDARDS

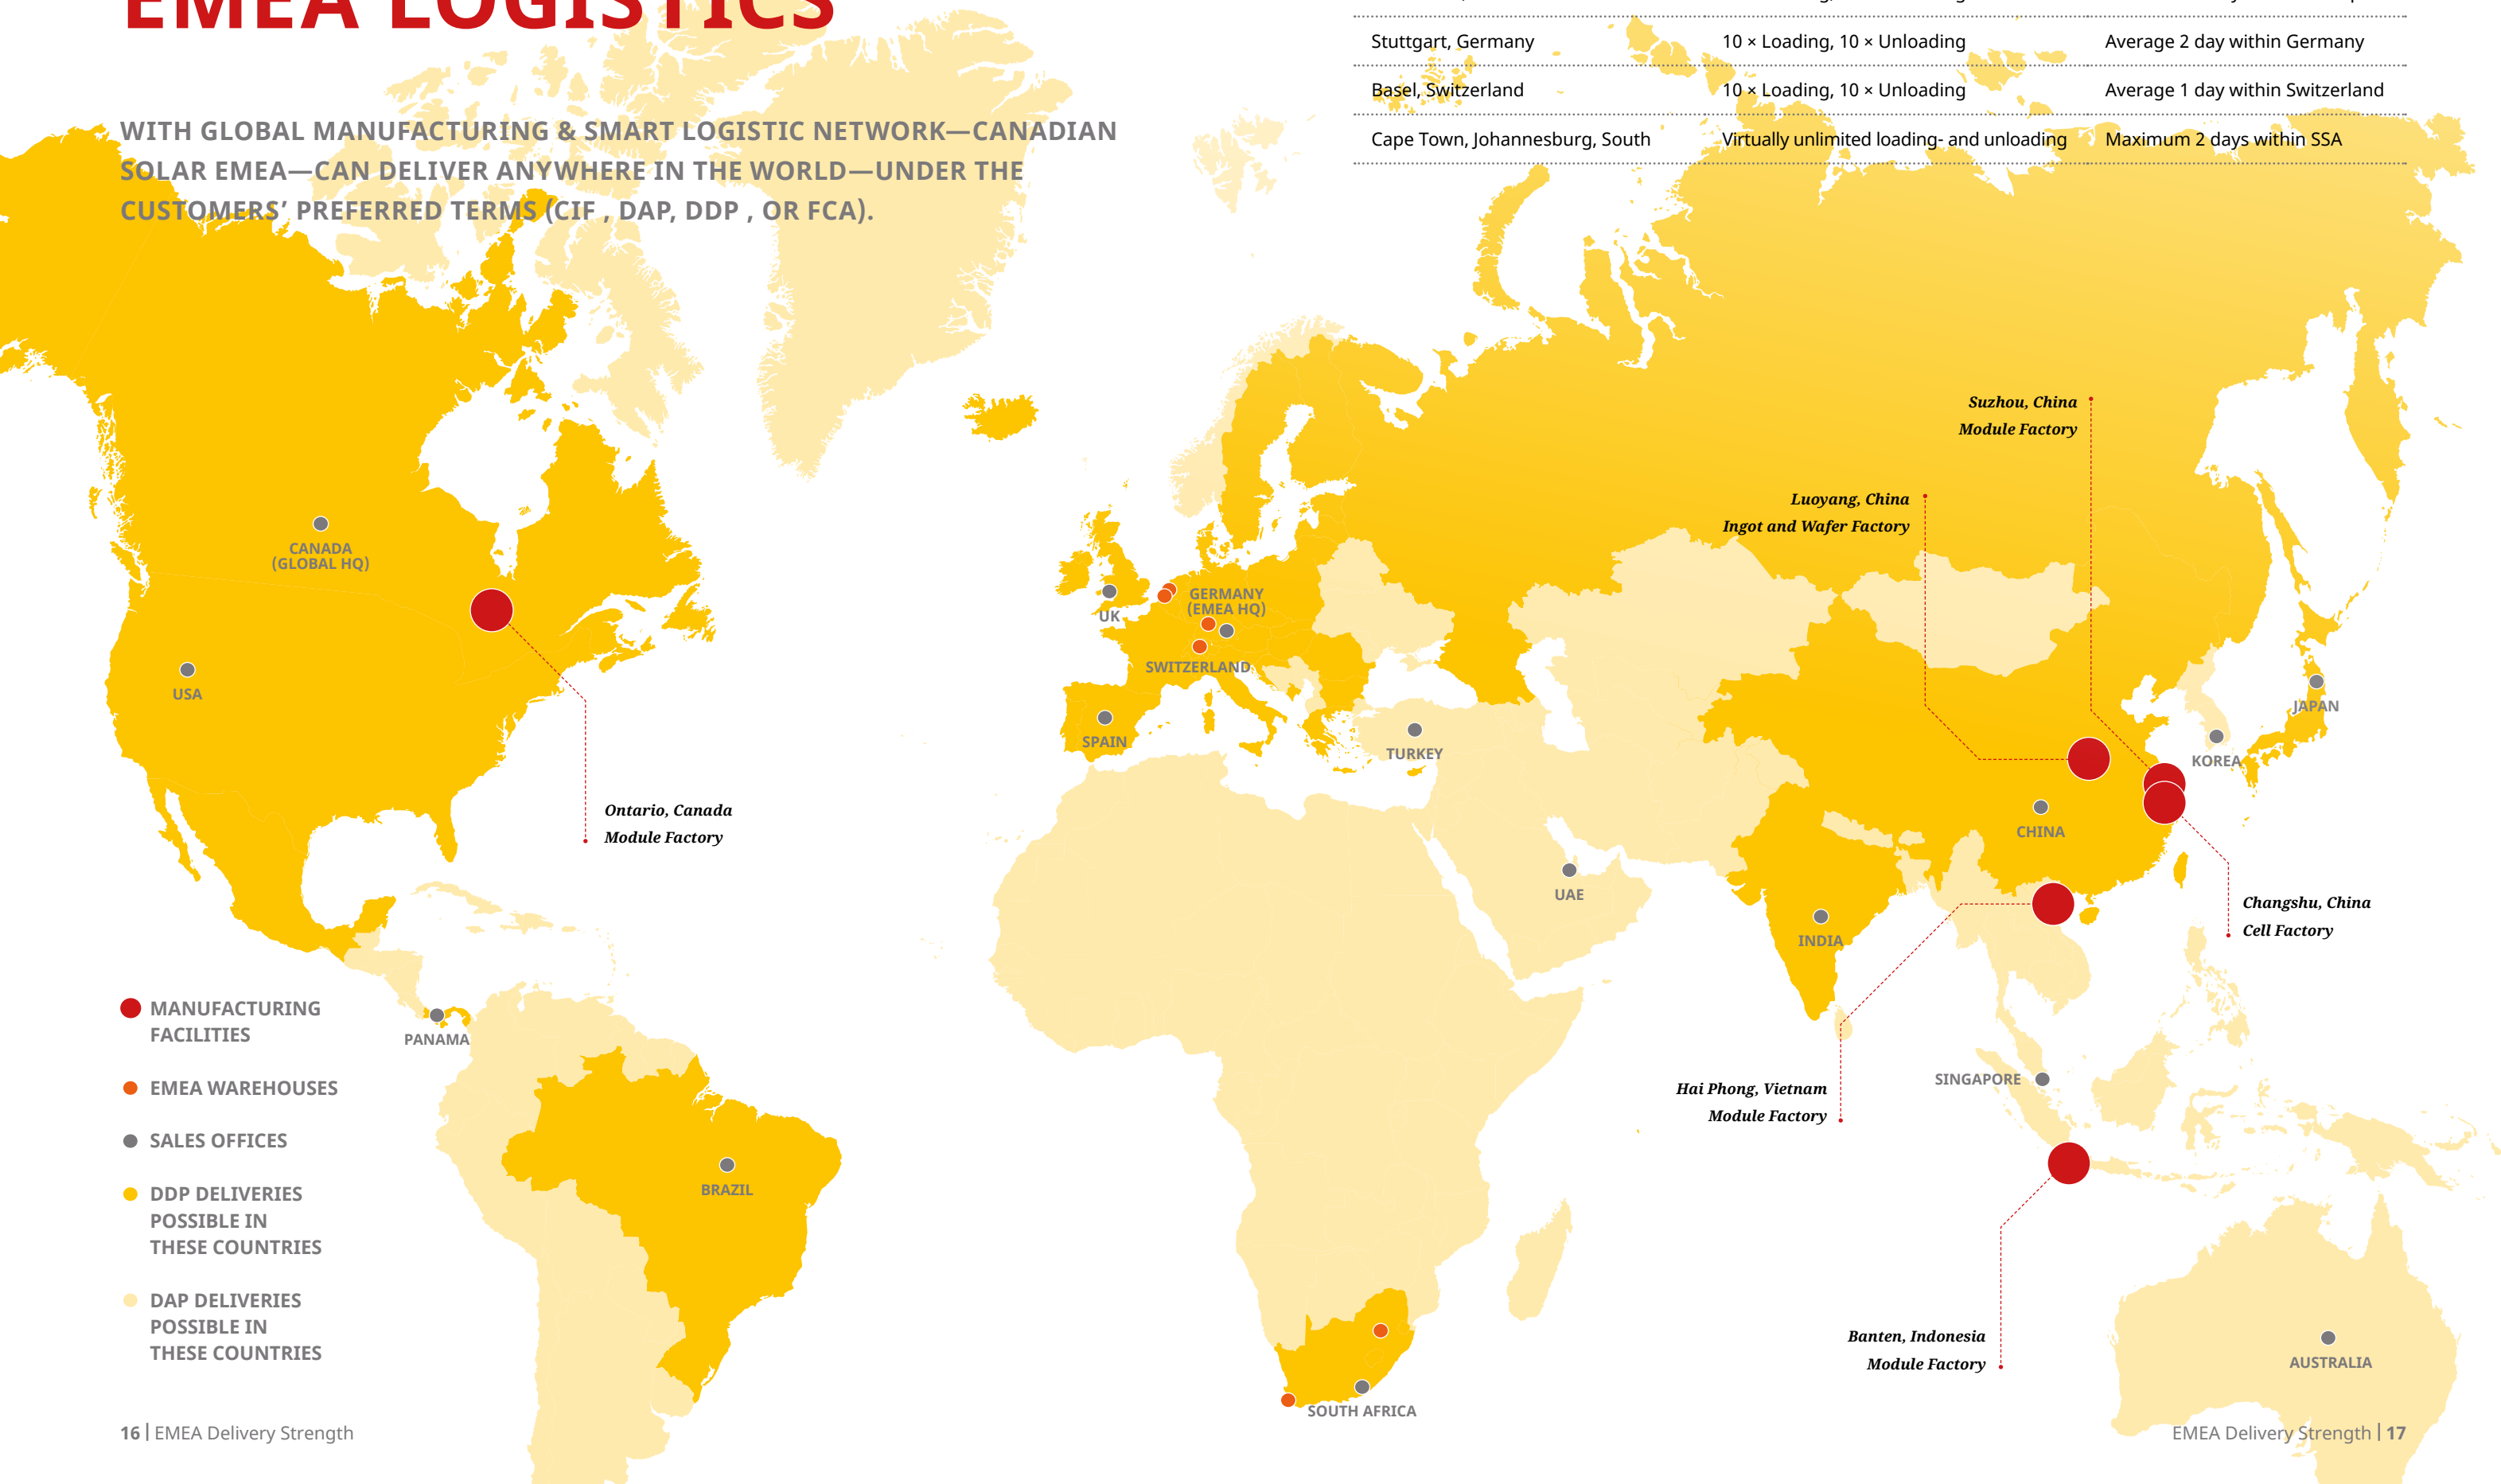

- > Compliance with ISO IEC 17024 procedures to approve all materials and components entering our facilities
- > Confirmation through IEC 61215 and IEC 61730 tests to ensure product safety and reliability
- > Adaption of the stringent quality-management system of the automotive industry (ISO/TS 16949) to PV manufacturing
- > Compliance with international quality and environmental-management standards ISO 9001, QC080000, ISO 14001 and OHSAS 18001

GLOBAL REACH WITH EMEA LOGISTICS

WITH GLOBAL MANUFACTURING & SMART LOGISTIC NETWORK—CANADIAN SOLAR EMEA—CAN DELIVER ANYWHERE IN THE WORLD—UNDER THE CUSTOMERS' PREFERRED TERMS (CIF, DAP, DDP, OR FCA).

WAREHOUSE LOCATION	TRUCKLOADS PER DAY	MAXIMUM DELIVERY TIME
Rotterdam, Netherlands	25 × Loading, 25 × Unloading	Maximum 3 days within Europe
Stuttgart, Germany	10 × Loading, 10 × Unloading	Average 2 day within Germany
Basel, Switzerland	10 × Loading, 10 × Unloading	Average 1 day within Switzerland
Cape Town, Johannesburg, South	Virtually unlimited loading- and unloading	Maximum 2 days within SSA
