

Our DC Cabinet is used when multiple battery racks are installed.

The DC Cabinet is used to combine the supplies from up to 6 battery racks/cabinets to a PCS.

Expandable

Multiple DC Cabinets can be fitted with larger systems.

High power

200 – 1000A to suite the battery systems power requirements

Easy to install

Pre-made sockets for data connections and accessible bus bar system for power.

5 Year warranty

Supplied with a full manufacturers warranty. Our UK based support team are on hand to help you should any issues arise.

DC Cabinet

200A SME

Dimensions $W \times D \times H$	600 x 800 x 2050mm
Weight kg - (Without batteries)	200
IP grade	IP20
Current rating A	200
Advantages	Robust steel construction Built in display
Voltage range DC	600 – 850V
Safety	Robust Multi Point Monitoring BMS. On/Off button, DC MCB, Emergency stop
Connections	AC Supply DC Input DC Output CAN bus in CAN bus out
Communication protocol	CAN bus / RS485

500A or 1000A SME

Dimensions $W \times D \times H$	600 x 800 x 2050mm
Weight kg - (Without batteries)	200
IP grade	IP20
Current rating A	500 or 1000
Advantages	Robust steel construction Built in display
Voltage range DC	600 – 850V
Safety	Robust Multi Point Monitoring BMS. On/Off button, DC MCB, Emergency stop
Connections	AC Supply DC Input DC Output CAN bus in CAN bus out
Communication protocol	CAN bus / RS485
