## Assembly Instructions

## Tools Needed – M5 Allen & Phillips Screwdriver

1. Attach the adjustable feet to the underside of the Bottom panel (G3)

2. Position side panels (#2) on top of the bottom panel. The numbers on the side panels should face the back.
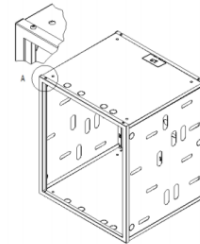

3. Align the top panel (G1) so all sides are flush.

4. Slide the frame on the front so that it covers the bottom, sides, and top panel. Use the fasteners to keep in place – loose fit.
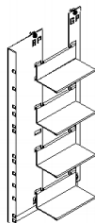

5. Slide the back panel on the front so that it covers the bottom, sides, and top panel. The number 4 should be at the bottom. Use the fasteners to keep in place – loose fit.
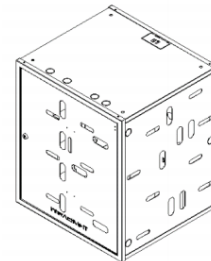

6. Once all the panels are in position, Fasteners can be tightened.

7. Insert the left internals (#6 & #5). The bottom of the part slides through the slots on the side and bottom panel. Use the fasteners to attached the part at the top. Repeat for the right-hand internals.
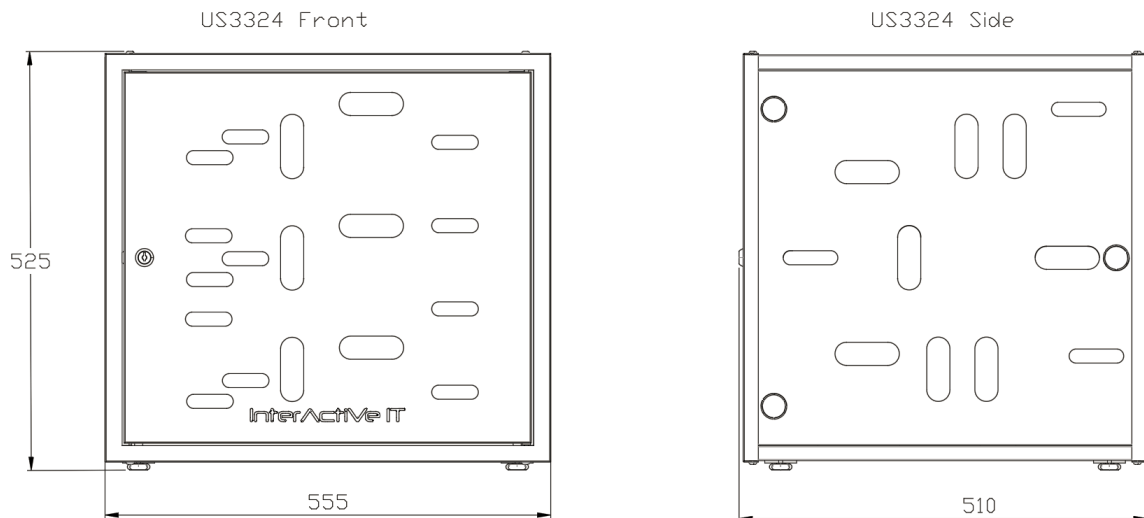

8. Inset the power rails – no fasteners needed

9. Door – Slide the pin of the door into the available hole on the bottom panel. Pull the spring catch at the top to position the door.
